# Water

1.5

## SIX SENSES WATER- STILL OR SPARKLING

We produce all our water in our plant in order to reduce the carbon footprint from importing and the filling of waste sites with discarded bottles. Six Senses charges a nominal amount based on the price of a local bottle of drinking water and then donates 66% of it to our Sustainability Fund focusing on providing water to the 780 million people without access to clean drinking water and to reduce the 3.4 million people who die from water related diseases. We appreciate your support and generosity in this initiative.

*Please do let us know if you have any special dietary requirements in order to facilitate your drinks  
All prices are in Omani Rial and subject to 9 percent government tax and 8.4 percent service charge*
